SUMMARY

Full-Stack Developer with 3+ years building production web and mobile apps using React, SvelteKit, Node.js, and Flutter. Shipped a published Chrome extension and a live education platform end-to-end.

EXPERIENCE

Independent Full-Stack Developer

Freelance

September 2024 – Present, Fergana, Uzbekistan

- Built Chinora Academy (chinoraacademy.uz), an online learning platform, from scratch in 2 months using SvelteKit and TypeScript — course catalog, authentication, and enrollment, with SSR for fast load times and SEO.
- Designed and published Flash Note, a Manifest V3 Chrome extension for in-page note-taking with local storage, reminders, and JSON import/export; holds a 5.0 rating on the Chrome Web Store.
- Built a Telegram bot in Node.js serving 840+ registered users, with movie/TV search, watchlists, automated weekly recommendations, and a sponsor-channel membership verification system.
- Currently building a Flutter-based employee attendance system for a client within a 12–14 day delivery timeline, using FastAPI and DeepFace/ArcFace for server-side face recognition and ML Kit for on-device liveness detection.

Mobile Development Trainee

Simpl Solutions

April 2024 – April 2025

- Completed an 8-month structured Flutter/Dart training program as part of a 5-person cohort selected after a developer interview, covering app architecture and state management fundamentals.
- Built 4 practice applications — a chat app, weather app, OTP verification app, and gallery app — applying Clean Architecture principles with BLoC/Provider state management.
- Practiced integrating REST APIs for live data within Flutter apps across Android and iOS environments.

React Frontend Developer

Bugun, Kecha, Ertaga MCHJ

May 2022 – August 2022, Bukhara, Uzbekistan

- Contributed to a government document-exchange platform as part of a 6–10 person cross-functional team, building interfaces with React.js.
- Converted legacy non-responsive code on the platform into mobile-first, responsive layouts.
- Independently fixed and rebuilt 1–2 additional client websites to be fully responsive.
- Collaborated closely with designers and backend developers over a 4-month engagement to deliver production-ready modules.

EDUCATION

Digital Economy

Fergana State Technical University • 2023 – Present
